CAREER SUMMARY

Organized and dependable Data Analytics graduate (Second Upper Class Honours) with hands-on experience in data management, full-stack software development, IT support, and field operations. Practical track record in maintaining databases, organizing operational records, taking detailed meeting notes, and assisting with team coordination. Proficient in Python, Power BI, Excel, and MySQL, with a strong dedication to learning quickly and transforming raw data into useful insights for the business.

WORK EXPERIENCE

Forestry Department | January 2026 - June 2026

Application Developer (Intern)

- App Development & Support: Built and developed a reliable Wildlife Management app and admin panel using Flutter, PHP, and MySQL. Listened closely to field officers' feedback and updated the software to make their tracking and report easier.
- Cross-Departmental Coordination: Assisted in organizing meetings between external agencies and internal management, carefully writing down meeting notes (MoM) and following up on tasks so project deadlines were met smoothly.
- Field Operations & Conservation: Actively participated in hands-on field operations across Brunei–helping with crocodile monitoring, setting up humane traps, and handling wildlife calls according to government guidelines.
- Community Outreach: Conducted interactive safety briefings at local schools and designed digital educational materials for Ministry programs.
- Code Quality and System Reliability: Responsible for writing clear, maintainable code as the sole developer on the project. Carefully tested and reviewed system updates before deployment to catch issues early and keep the application running smoothly and securely.

Jabatan Bandaran | April 2018 - Jun 2018

IT Support (Intern)

- Computer Maintenance & Setup: Configured and set up computers, monitors, and equipment for staff members. Performed regular software updates, driver installs, and system patches to keep everything secure and running smoothly.
- Network & Connection Support: Helped resolve local internet and Wi-Fi connection issues, fixed damaged cabling, and assisted senior network administrators with cable management and network checks.
- Equipment Tracking (Inventory): Built an easy-to-use Excel spreadsheet (using VLOOKUP and Pivot Tables) to log and keep track of company hardware and software assets.
- Office & AV Assistance: Maintained office printers and set up conference room audio/visual equipment for meetings, making sure events ran smoothly without technical interruptions.

EDUCATION

University Teknologi Brunei | 2023-2026

Bachelor of Science (Hons) in Computing (Major in Data Analytics)

- **Degree Classification**: Second Upper Class Honours
- **Capstone Project**: Architected and deployed a comprehensive Wildlife Management mobile app and admin dashboard (Flutter, PHP, MySQL) to digitize wildlife tracking and incident reporting

Micronet International College | 2020-2022

Pearson BTEC Level 5 Higher National Diploma in Computing

- **Grade:** Merit

PROFESSIONAL DEVELOPMENT & TRAINING

de' HERITAGE IT Services & Training Centre | 2026

- Certificate of Participation The Importance of Project Management

Cohort 2 of Coding.bn | Authority for Info-communications Technology Industry (AITI) | Feb 2023 – Aug 2023

- Completed a comprehensive 6-month intensive program covering front-end & back-end development

AITI & InfoMars March | 2022

- Completed an intensive 2-day training program covering the core concepts of Microsoft Power Apps, Power Automate, and Power BI

SKILLS

- Data Management & Analytics: Data Cleaning & Preparation (Power Query, Python), Power BI (Dashboards & Visualization), Database Management (MySQL), Excel (VLOOKUP, Pivot Tables).
- Programming & Systems: PHP, Flutter, Java, JavaScript, HTML/CSS, Systems Support, Software Testing (QA), Agile Methodologies.
- Admin & Operations: Requirements Analysis, Minutes of Meetings (MoM), Process Documentation, Asset & Resource Tracking, Quality Auditing.
- Field Safety & Compliance: Incident Reporting & Tracking, Field Safety, Compliance Monitoring, Risk Assessment, Community Briefings.
